

Full Plates - Part Plates - Profiles

Experience

When dealing with high strength and abrasion resistant steels you cannot afford to take chances, it pays to trust to trust a specialist.

For over 30 years A J Marshall have supplied high quality plates and profiles to customers both throughout the UK, and worldwide.

AGRICULTURAL ATTACHMENTS

Solutions

With the UK's largest quenched and tempered size range, 3mm to 160mm thick, 99% of all enquiries can be covered covered from stock.

Your costs are kept to a minimum with up to four different widths per thickness and the choice of full plates, cut to length part plates or profiles. You never need to buy more than you need.

Also available drilling, machining and bending services, so finished products such as bucket lips, crusher spares and dump truck reliner kits can be delivered straight to site.

EXCAVATOR BUCKETS

Excellent service does not happen by accident. Our whole organisation is structured to ensure that you, the customer, can place your order and relax safe in the knowledge that the steel you have ordered, fully certified to your requested specification will be delivered on time, every time.

PROFILING

DUMP TRUCK RELINER KITS

However large or small your enquiry our sales staff will be happy to discuss any of your requirements in detail, and with the technical back up of some of the world's largest mills we can find an effective solution to even the most exceptional and complicated applications.
